

Octotint 155

CHEMICAL NAME: Phthalocyanine Blue Pigment
Color Index Name: Blue 15:1
CAS# 147-14-8/Color Index No. 74160

PHYSICAL FORM: Aqueous anionic dispersion, paste

PRODUCT SPECIFICATIONS		METHODS
Solids	61.0 - 64.0 %	SCC-040
pH	7.0 - 9.0	PHC-010

PRODUCT DESCRIPTION:

Octotint 155 is a high solid pourable organic pigment dispersion recommended for use in a variety of aqueous systems. Octotint 155 is fully dispersed and delivers full color strength. This results in an economical advantage by reducing handling and pigment loading. Phthalocyanine blue is recommended for use in rubber compounding, providing excellent lightfastness, resistance to bleed, and maximum heat resistance.

All of the ingredients in Octotint 155 are included in the TSCA and the European EINECS Inventories.

The colorant used in this product is the technical grade and not the U.S. FDA certified grade; however, the colorant is still U.S. FDA compliant under 21 CFR Part 178.3297 for use as an indirect food additive in food contact applications.

STORAGE AND HANDLING:

Containers should be kept tightly closed. Protect from freezing. Contents should be stirred using mechanical agitation prior to use.

The information provided herein is believed to be reliable; however, no guarantees are made or liability assumed. Tiarco Chemical makes no claims or warranties concerning the suitability of the product for a particular use or purpose.
