### PRODUCT DESCRIPTION:

Octotint 725 is a finely divided aqueous dispersion of rutile titanium dioxide pigment, at 60% activity. Titanium dioxide has the greatest hiding power, or opacifying power, of all pigments. It is also inert and noncombustible. Octotint 725 is formulated for direct addition into most latex-based compounds, thus providing the compounder with a ready to use pourable form of TiO<sub>2</sub> with improved dispersion properties.

Titanium dioxide has approval by the FDA for use under the following: CFR 21, Sections: 175.105, 175.300, 176.170, 177.2600, and 178.3297. All of the ingredients used in this product are listed on the TSCA Inventory.

### STORAGE AND HANDLING:

Containers should be kept tightly closed. Contents should be stirred using mechanical agitation prior to use. Protect from freezing (32 deg. F.).
